HOUSTON SHUTTERS

Introducing our 2025 Product Premieres, the latest innovation from Houston Shutters. Designed to revolutionize the industry, these cutting-edge products set a new standard in modernizing window coverings. With unparalleled features, they promise to redefine your experience. Get ready to elevate your space with these innovative new products.

BIG MODERN

Designed for today's modern windows

Crafted with a bold and modern aesthetic, this shutter boasts a sleek design that's anchored by our rugged Master Metal frame, that radiates style. The frame's clean lines effortlessly enhance any space, delivering a flawless fusion of practicality and elegance.

A-B: Oversized rails & stiles with no beading

C: Choose from 3-1/2", 4-1/2" or 5-1/2" louvers

D. Sleek Modern Metal frame blends seamlessly with your window trim

MODERN METAL FRAME

An exciting update in shutter framing

Our new all Modern Metal Frames feature precision engineering with a sleek low profile, which compliments without covering up existing window trim. With its minimalistic appeal, metal frames are the perfect complement for today's modern windows.

Frame colors from L to R: Gunmetal, Bright White, Chocolate, Black

Crafted from high-quality aluminum, this frame offers resistance to corrosion and wear, making it suitable for various environments. Offered in 18 glossy or matte finishes.

Frame color options:

See color matrix on pages 16-17 for frame/finish combinations.

Shown in Bright White/Driftwood

DUO FINISH

Dazzling design - A bold fusion of finishes

An effortlessly stylish fusion of innovation and charm. With Duo Finish, choose from complementary or contrasting finishes to craft a bold design statement in your living space.

5-1/2" Louvers - Shown in Midnight/Moonray

Popular color combinations:

- | | |
|---|---|

5-1/2" LOUVERS

A Houston Shutters Exclusive

Introducing the ground-breaking innovation that redefines shutter design: Houston Shutters' exclusive 5-1/2" louver shutter. Crafted out of pioneering spirit, this shutter sets a new standard of luxury and style in the market.

Prepare to be captivated by the bold statement of these generously sized louvers. At 5-1/2" wide, they create a striking visual impact, transforming any space into a masterpiece of elegance and sophistication.

SHIPLAP LOUVER ARCH

Elegant light diffuser

The Shiplap Louver Arch boasts a meticulously engineered louver system that, when closed, forms a robust light-filtering barrier, effectively reducing external light.

The precision engineering ensures each louver lays flat, leaving fewer gaps for light to penetrate, providing unparalleled light-filtering capabilities for enhanced privacy and a darkened interior ambiance.

Shown in Off White

MIDSTILE SHUTTER

DESIGNED WITH WIDE WINDOWS IN MIND

Introducing the formidable MidStile shutter. Meticulously crafted for unparalleled performance, these shutters reinvent style and utility. Positioned strategically at the center, the MidStile guarantees stability and accommodates exceptionally wide panels.

HOW IT WORKS

A. Center mid-stile does not open, or fold. Provides stability for panels up to 48" wide.

B. Creates the appearance of two panels in one.

Experience the flawless fusion of style and utility with our MidStile shutter. Combining timeless charm with cutting-edge functionality, it offers unparalleled aesthetic appeal and practicality.

PERFECT FOR CORNER WINDOWS

ENCLAVE SHUTTER

Elevate privacy, unveil versatility

Crafted with precision, this ingenious design houses a shutter within a shutter, offering unparalleled versatility for transom windows.

Experience ultimate control over light and privacy with the Enclave Shutter's unique dual-panel system. Hinge the upper panel into the room for a unique design aesthetic or adjust the louvers in the sections independently of each other for ultimate light control.

Transform your windows into a statement piece with the Enclave Shutter; the perfect blend of sophistication and practicality.

BERMUDA SHUTTER

Inviting light, inside out

Elevate your home with the Bermuda Shutter – the ultimate solution for transom windows. Designed to seamlessly cover these unique architectural features, the Bermuda Shutter adds a touch of sophistication while offering exceptional light control.

With its innovative tilt-in function, adjusting light and airflow has never been easier. Simply tilt the panels inward to invite gentle breezes and natural light into your space.

Transform your transom windows into a focal point with the Bermuda Shutter; the perfect blend of style and functionality.

SKYLIGHT SHUTTER

Reach new heights

Discover the ultimate answer for skylight windows with this state-of-the-art shutter boasting an advanced locking system. Meticulously crafted for peak performance and visual appeal, these shutters offer unparalleled light control for those tricky-to-access windows.

Shown in Bright White

Our innovative locking mechanism is designed to securely hold shutter panels in place, preventing unwanted movement and ensuring a snug fit. Adjust desired level of light exposure with confidence. Simply press the latch to release the lock and open the panel.

Crafted with precision and durability in mind, these shutters seamlessly blend into any interior or architectural design, adding a touch of sophistication to your space. Experience the perfect synergy of style and convenience with our Skylight Shutter. A better solution with safety in mind.

MODERN SLIDING DOORS

Slide into something stylish

Transform your interiors with the clean, sophisticated functionality of Modern Sliding Doors. Designed to glide effortlessly, these doors combine aesthetic appeal with space-saving practicality. Whether you're seeking a bold statement or a subtle partition, these versatile doors redefine traditional styles with a modern edge.
